

The Submarine Show Technical Rider

The Submarine Show is a live theatrical performance created by Jaron Hollander and Slater Penney. The show has very simple lights, a few sound cues and we require very little if any load-in and load-out time making it an ideal touring production. The running time is approximately 75 minutes, no intermission.

PERSONNEL

2 Actors (Slater and Jaron)

1 Stage Manager / Company Manager/ Technician (can be supplied by us or the venue)

SPACE AND VENUE

The Submarine Show is very flexible and is able to work in almost any size or shape venue. The only requirement is an ability for the actors to move directly from the stage into the audience and back during the performance.

SCENIC ELEMENTS

There are no sets. A neutral empty stage is all we require.

LIGHTING

We are very flexible. Ideally, we need a simple wash, 2 specials, and house lights. We prefer to use the presenters' lighting technician.

SOUND

1 audio file

WARDROBE

We need access to dry cleaning.
